** Two 50ft. Rolls packed together

To order tape, select thickness and width you require. Identify the code number for proper tape width. This is the suffix of the order part number. Example: you wish to order 1/16" thick tape at a width of 2". The 1/16" thickness is tape N22P400. The width code for 2" wide tape is 12. Therefore, specify N22P400-12 tape.

Notes:

- ◆ Roll lengths 100 feet unless otherwise specified.
- ◆ Pressure Sensitive Adhesive (PSA) available up to 3" tape widths
- ◆ Items marked above with an asterisk (*) must be minimum of 5 roll order.
- ◆ Other tape widths available in minimum quantities of 20 rolls per order.
- ◆ All tapes may be Vertex (Vermiculite coated for an additional coating charge.)
